

ALL WRONG WAS HER LIVER

Before Taking Black-Draught,
Missouri Lady Was Troubled
With Constipation, Head-
ache and Bad Taste
in Mouth.

Grandin, Mo.—Mrs. Susa Brooks, of this place, writes: "Some time ago I was in a bad fix, with stomach and liver trouble. I did not feel good at any time. I was very constipated, and had headaches from this condition, and had a continual hurting in my stomach, and bad taste in the mouth. Could tell my liver was all wrong."

"I had known of Black-Draught, so decided to try it myself. I began with a large dose or doses, gradually getting to smaller doses. It regulated my bowels, relieved me of the hurting in my stomach, cleaned off my liver and made me feel like a new person."

If you get up in the morning feeling as tired as you did when you went to bed—achy, coated tongue, bad taste in mouth, sallow complexion—then your liver has not done its full duty, and your system has absorbed the poisons which your liver should have taken away.

An occasional dose of Theodor's Black-Draught will help this important organ to function properly.

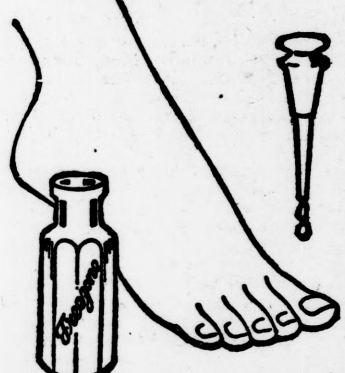

Get a package of Theodor's Black-Draught liver medicine today. Druggist sells it, or can get it for you.—Adv.

Lift off Corns!

Doesn't hurt a bit and Freestone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freestone" costs little at any drug store; apply a few drops upon the corn or callous. Instantly it stops hurting, then shortly you lift that bothersome corn or callous right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often
Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in promoting the health of the kidneys. The mild but powerful action of Dr. Williams' Pink Pills is well known. It is the best remedy for the remarkable record of cures.

An eminent physician has said: "The kidneys are the most important organs in the body. If they are diseased, the whole system is affected. It is on this point that the kidneys are so important. It is on this point that the kidneys are so important. It is on this point that the kidneys are so important."

Dr. Williams' Pink Pills are sold by all druggists. They are the best remedy for the kidneys. They are the best remedy for the kidneys. They are the best remedy for the kidneys.

CAUSES OF HIGH PRICES UNREMOVED

Little General Relief Seen by
Federal Board

ANALYSIS OF MAY BUSINESS

Only A Slight Increase in Production
And No Greater Disposition On
The Part Of The Public To
Economize And Invest.

Washington.—Despite recent reductions in prices, little relief from the general reign of high prices is seen by the Federal Reserve Board in its analysis of May business conditions. The board expressed the view that there has been no change in the underlying conditions responsible for the high cost of living.

Asserting that while "store sales" and a tendency to lower prices bears witness to the presence of "disturbing factors," which suggest the advent of wide alteration in price levels, the board declared it cannot accept the situation as a whole for its face value. The explanation is added that there has been only a slight increase in production and there is no greater disposition on the part of the general public to economize and invest than had ruled heretofore.

"The changes that have taken place, therefore," the board's analysis says, "cannot be looked upon as indicating a modification of underlying conditions. They may, however, afford a basis for changes in business relationships that may broaden into more far-reaching alteration of the essential price structure."

Business in every section of the country has suffered considerably from the freight jam which has prevented normal movement of products to markets. Effects of the tieup are noticed in the agricultural districts as much as the industrial areas, and that farmers are not the smallest class which has sought more bank help in the way of credit as a result.

Results of the board's action in the direction of restricted loans already have begun to be evident, according to reports of the various reserve banks. In addition to a general reduction in the value as well as volume of securities traded in the financial centers, there has been a general revision of interest rates affecting both commercial paper and call money, it is stated.

The labor situation during the month has been one of the outstanding elements of "doubt and difficulty" and is one of the larger problems with which the country is expected to have to deal with the rest of the summer. In addition to intense shortage of labor on farms and at other points of primary production, sporadic strikes have occurred in many lines of manufacturing, notably the textile industry, indicating, in the board's view, continued unrest.

WOMEN TO PLAY SMALL PART.

Will Have Only 94 Delegates At Two
National Conventions.

Washington.—Women will have little voice in choosing Presidential candidates and practically no official part in either of the great national conventions, the National Woman's party pointed out.

Delay in ratification of the suffrage amendment is blamed. Declaring there will be only 25 women delegates in the Republican convention and 69 in the Democratic, a statement from the party said:

"The 17,000,000 women eligible to vote for the next President, whether or not the Federal suffrage amendment is ratified, are thus accorded only a 2 per cent. representation in the choice of the Republican nominee and only a 6 per cent. representation in the choice of the Democratic candidate, although women form approximately 35 per cent. of the total number of persons eligible to vote for President next November."

"Figures compiled by the Woman's party also indicate that women have played a comparatively minor part in the selection of delegates to the two conventions."

MEDALS TO FIFTY NURSES.

Six Americans Among Those Rewarded
For Heroism.

Geneva, Switzerland.—Fifty nurses, representing 15 countries, have been awarded the Florence Nightingale medal for heroism on the battlefield by the Geneva Red Cross. Six American, eight British and eight French nurses received the decoration.

FARRAGUT'S OLD SHIP BURNED.

Mass Of Charred Timbers All That Remains
Of Richmond.

Eastport, Maine.—A mass of twisted metals and charred timbers lying on Coney Beach here is all that remains of the frigate Richmond, once the pride of the United States Navy. The famous wooden warship, built in 1858, was used during three wars in capacities varying from admiral's flagship to receiving ship and finally was burned for the copper in her hull.

U. S. RHINE MEMBER RESIGNS.

Pierrepoint B. Noyes Succeeded By Gen.
Henry T. Allen.

Paris.—Pierrepoint B. Noyes, American member of the Interallied Rhine-Rand Commission, has resigned that post and his resignation has been accepted in Washington. All his powers will be taken over by Maj. Gen. Henry T. Allen, commander-in-chief of the American Army of Occupation, who will continue likewise in military authority.

NEW ARMORED TRIPLANE STANDS SEVERE TESTS.

Washington.—The new armored triplane, designed and built by the Engineering Division of the Army Air Service at Dayton, Ohio, has now met with complete success the severe tests prescribed for it. The performance of the plane has been greatly admired by all who have witnessed the tests.

The armored plane is driven by Liberty motors. Both the engine and fuselage are completely covered with light armor. It carries a 37-MM cannon and eight machine guns, performs well and is readily handled in the air.

It is well equipped either for battle with enemy planes at high altitudes or for strafing hostile forces while flying close to the ground.

NEW POLICY TOWARD MEXICO

Senate Committee Propose
Intervention By America

DETAILS OF THE PROGRAM

U. S. To Aid In Establishing A Mexican Army Which Shall Disarm
All Other Military
Factions.

Washington.—Armed intervention in Mexico, in the event that the new Government in that country fails to give adequate guarantees for the protection of American life and property along the border and south of the Rio Grande, is called for in a report of the Mexican subcommittee of the Senate Foreign Relations Committee, just made public.

Reciting the fact that a total of 785 Americans have been killed, wounded and outraged in Mexico in the last 10 years, and that in the same period property losses have been sustained by American individuals or interests to the extent of more than \$500,000,000, the report proposes that, should the Mexican Government refuse to accede to the conditions laid down, the following course be pursued:

"That (following due warning) we will send a police force consisting of the naval and military forces of our Government into the Republic of Mexico to open and maintain open every line of communication between the City of Mexico and every seaport and every border of Mexico."

"And that we owe to our citizens in Mexico and those who have been driven out of that country the duty, as McKinley said, 'To afford them that protection and indemnity for life and property which no government there can or will afford, and to that end to terminate the conditions that deprive them of legal protection.'

"In giving notice that we are not warning upon the Mexican people we should request their assistance; or at least that they refrain from joining any armed bands in any attacks upon our troops or forces, whose purpose would simply be the restoration of peace and order, protection of our own citizens, protection of Mexican citizens, restoration of American citizens of their properties, the affording of opportunity for the opening of mines, fields and factories and last to afford the opportunity for the Mexican people themselves, in whatever manner they desire, to constitute a Mexican Government of serious, competent, honest and honorable men who will meet the civilized world upon a friendly ground and bind themselves to deal with other people as they themselves would be dealt with."

POPE'S APPEAL FOR PEACE.

Episcopal Letter Addressed To The

Rome.—Pope Benedict has addressed the entire world an episcopal letter on Christian reconciliation and peace. The Pontiff remarks that despite the end of the war, ill-feeling still exists. He begs that all Christians forget these ill-feelings with the view to mutual understanding.

FIVE DIE IN AUTO SMASH.

Canton (Ohio) Interurban Car
Molashes An Automobile.

Akron, O.—Five persons were killed when a Canton interurban car crashed into an automobile at Hoover, east of here. The dead are: Eva Hepler, 21; Albert Rafferty, Lucinda Barkes and two unidentified persons. The dead and injured were all occupants of the automobile.

EX-KAISER TAILORS HIMSELF.

Reported To Be Stocking His Ward
robe And Excelling At Job.

London.—William Hohenzollern, former Emperor of Germany, is trying his hand as a tailor, according to a Central News dispatch from Amsterdam. He is cutting out patterns for many new suits with which he is going to stock his wardrobe, and the dispatch quotes a trade paper as declaring he is "excelling at the job."

VIENNA GOVERNMENT SHAKY.

Collapse Of Coalition Predicted Before
End Of Week.

Vienna.—The collapse of the coalition government before the end of the week is predicted by Der Morgen, which expresses the belief that the breaking up of the Ministry is being delayed only by the efforts of the two parties to secure tactical electoral advantages.

AMERICANS ASK FOR PROTECTION

U. S. Consul Reports Threats
Made by Villa

REBEL DEMANDING \$50,000

Reported That 4,000 Troops Are In
The Vicinity Of The Property
—Diaz Friendly To Huerta
Regime.

Washington.—Threats by Villa to destroy the property of the Alvarado Mining Company at Parral unless he was given \$50,000 were reported to the State Department by the American consul at Chihuahua. The company is an American concern.

Military guards to protect the property were asked for by the American consul, who was assured by local officials that there were about 4,000 troops in the vicinity of Parral. Ignacio Enriquez, military governor of Chihuahua, was reported to have conferred with Villa Tuesday.

The Senate subcommittee which has been investigating conditions in Mexico for six months notified Chairman Lodge, of the Foreign Relations Committee, that it was ready to report.

Practically all the testimony taken by the subcommittee dealt with conditions prior to the overthrow of the Carranza Government, but it is known the committee regards the new government in Mexico in such light as not to alter materially the character of its findings. It is understood the subcommittee, among other recommendations, will urge extreme caution in according full diplomatic recognition to the revolutionary government and will insist upon a thorough understanding by the two governments of the obligations Mexico must assume if either the moral or the material support of the United States is to be given.

Dispatches received here said Villa again was being hunted by the Mexican troops. Revolutionary agents who have come to Washington have asserted the pursuit this time will be much more earnestly conducted than under Carranza.

Oregon Makes Reply.

Mexico City.—Replying to a message of felicitation to himself and those associated with him by the new regime in Mexico, sent by a number of the members of the municipality of Los Angeles, Gen. Alvaro Obregon expressed his thanks to the senders and declared that if he should be elected to the presidency he would seek to bring about amicable relations between Mexico and all other countries, "especially those next to us on the American continent."

"One of my greatest days," added General Obregon's reply, "would be that on which the soldiers which are stationed to guard all frontiers leading to our country are withdrawn."

BAKER REPORTS BIG SAVING.

Has Liquidated 24,851 Out 26,449
Army Contracts.

Washington.—Secretary of War Newton D. Baker told the United States Chamber of Commerce that the War Department has saved the Government a total of \$2,571,048,950.90 in liquidating the contracts entered before the signing of the armistice. There still are 2,000 contracts to be liquidated and the amount already saved does not include the sum to be realized from the sale of articles taken over.

Notwithstanding many difficult obstacles, Secretary Baker says the War Department has pushed all cases to as early a settlement as practicable and up to May 15 of the 26,449 contracts cited as requiring settlement, involving a total of \$3,914,642,881.77, 24,851 involving obligations amounting to \$2,966,830,619.16 have been liquidated.

In making these settlements, he says, there was a cash outlay only of \$385,781,641.25, or 13 per cent. of the original obligation. "And this amount does not represent the total made by the settlement, for it must be remembered that in return for the \$385,781,641.25 paid out in final adjustment the War Department has taken over quantities of material and equipment which have been sold at considerable additional return."

STILL HOPING TO FLAG MARS.

Prof. David Todd Plans To Use Air-
plane In Next Attempt.

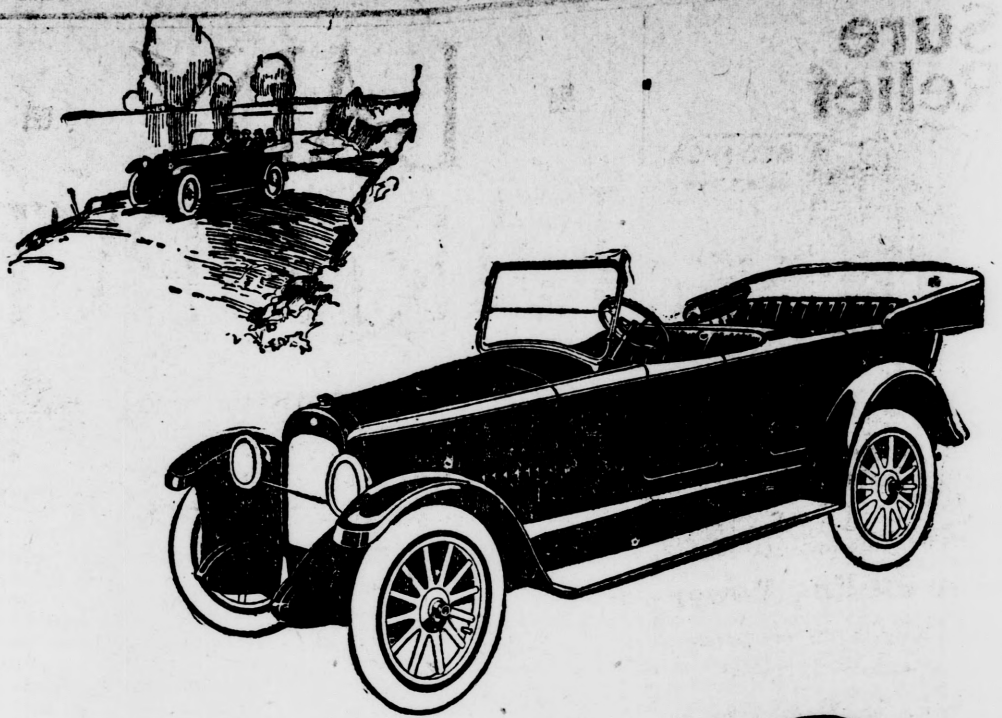

Stamford, Conn.—Prof. David Todd, noted astronomer, just back from South America, is at a health resort here resting before taking up certain experiments with Major W. Schroeder, holder of the record for altitude flying in an airplane.

Professor Todd said he had an idea that signals from Mars may be caught by August, 1924, when Mars will be 36,000,000 miles from the earth. That will be the closest the planet will be to the earth for another 600 years. He expects to work with a view to catching signals in an airplane.

Titan 10-20 Kerosene Tractor

REMEMBER this when you buy a tractor—Harvester service is a reliable and very important thing you get "thrown in" when you buy the tractor named above. It safeguards your entire outfit—Power, Machine, Hitch! Later on, if you need a tractor part you will get it with the same dispatch and certainty of perfect fit that you have experienced in connection with your binders and mowers.

Titan 10-20 kerosene tractor is built to operate from start to finish on low-priced kerosene (coal oil), or distillate. It does more than simply run on kerosene—it delivers its full-rated horse power or does any kind of work within its capacity on any kind of oil fuel above 39 degrees Baume.

This means that at the present prices of gasoline and kerosene in this locality you will save fully one-half your fuel costs over a tractor of equal horse power operating on gasoline. Getting down to a dollars-and-cents basis, if a Titan 10-20 is used, you will be able to make a saving of \$1,000 on fuel alone in five years of 1,000 hours' work each.

A Titan 10-20 will furnish dependable power in all seasons. For field, road or belt work it can be used day and night if the case demands. It will do this work at the least possible expense. It will be to your advantage to know the Titan 10-20. Come in and look it over. The best time is now.

PRESIDENTIAL CANDIDATES

THE Literary Digest, at a cost of \$500,000, has obtained the most thorough, and beyond doubt the most reliable, "straw vote" ever taken on the eve of a presidential election. It polled by letters and cards 11,000,000 voters in every section of the whole United States, and experts declare that it will prove a remarkable foreshadowing of the coming national election in November. In fact, many of these "straw vote" statistics were gotten while primary votes in a number of the states were being held, and the results of the Literary Digest's polls in those states is strikingly born out by the primary votes cast therein.

Here are some of the facts shown by that "straw vote." The Republican presidential candidates received 932,245 votes while the Democratic candidates received only 300,614—certainly not a promising outlook for the Democracy!

The Republican Old Guard is disclosed as but a fleeting shadow of its once omnipotent self, the sentiment of the Republican voters being overwhelmingly Progressive, that is, of the total votes cast for the five leading Republican candidates, 80 per cent. went to the three Progressive candidates—a result suggesting a final sepulture for that same "Old Guard."

The "straw vote" shows Wood 47,000 ahead of Johnson, and 109,000 ahead of Hoover, or Wood 40 per cent. of the total 478,000 Republican votes cast, Johnson 33 per cent., and Hoover 22 per cent. Wood's gain is still further increased when we remember that both Johnson and Hoover being "favorite sons," received by reason of that fact in their big home states a far larger vote than they would had they been like Wood merely candidates "at large."

The best estimates give Wood 238 votes on the first ballot in the National Convention at Chicago, Lowden 177, Johnson 166, Butler 88, Sproul 76, Harding 48, Coolidge 29, Poindexter 14. The Transcript believes Gen. Leonard Wood should receive the high honor of leading the Republican hosts on to victory. These are its reasons:

1. For over a year there has been manifested in every part of this country a spontaneous demand for his nomination. Long before any other name had been widely mentioned or any regular campaign begun, the general voice of the people had pronounced in his favor, and this expression was at once so wide and so plainly unimpaired by any campaign methods that it may be justly called "spontaneous."

2. Republicans generally recognize the fact that Gen. Wood more than any other living man represents the political views and policies of the great Roosevelt. Indeed, Gen. Wood having long been Roosevelt's intimate personal friend and political associate has been called his "residual legatee," and one who would likely carry out those views and policies now so generally accepted that had he lived Roosevelt would have been nominated by acclamation and elected by a phenomenally huge bipartisan popular vote.

3. Millions of Americans in both parties deeply resent the gross outrage and injustice done Gen. Wood by this Administration, and demand that it be rebuked by bestowing upon him the presidential honor in recognition of the many eminent services he has rendered the Nation and especially the invaluable aid lent to this country and to the Allies, through his Plattburg Officers' Training Camp project which made possible the swift offloading of our huge armies that stopped the Hun. But for Gen. Wood our army would have been too small to effect this great result.

As a reward for his patriotism and skill Gen. Wood was insulted and punished, and his indignant countrymen desire by thus honoring him to express their strong condemnation of this outrage.

We still hope, we believe, he will be nominated, though some fear the mistaken friendship of his enthusiastic admirer, Mr. Proctor who has devoted a very large sum to his perfectly legitimate campaign expenses, may be made a pretext by his enemies for his rejection.

This, however, we confidently assert that had Gen. Wood rested on his oars without spending one dollar for these costly advertising expenses, this popular demand for his nomination, like a mighty tidal wave gathering force every hour would have swept him into the White House.

MARY ANN

By LILLIAN ARDELL.

(© 1920, by McClure Newspaper Syndicate.)

When Mary Ann's father died he left behind plenty of good will toward himself and his family, but very few worldly goods. There was the homestead, heavily mortgaged, and many bills receivable. His best traits, good humor and forbearance, which had gained the love of his townspeople, had made of him an easy creditor and a lax collector. When his wife spoke to him on the subject he would drawl, "Wal, I think a heap more of Hiram Jones' good feelings toward me than I do of the \$10 he owes me."

So this was the state of affairs Mary Ann had to face—many half forgotten bills as assets. She carried the big book of accounts out to the hammock, so that she could enjoy the golden autumn day while she worked. Systematically she started at the beginning to take a list of her debtors. As she worked a long gray roadster sped by and a young man jauntily waved his cap. Mary Ann tossed her golden head. What right has a pestiferous boy to think he can wave at any girl, just because he happens to drive a roadster, she thought rebelliously.

As she pored over the accounts, she was amazed with the age of the unpaid bills. One, in particular, had been incurred almost 15 years before. As she looked at the name she sniffed disgustedly. "Jan Worthens," she said aloud. "No more time for him."

Everyone knew Jan Worthens, the most prosperous farmer in the county, and everyone secretly envied him. Jan's son and two daughters had always been to boarding school.

Two weeks later the mail man had an extra load of business-like looking envelopes, addressed in a round, girlish hand. There was a bill for every debtor, and a little letter asking for a settlement. Yes, there was even one for the cold and unapproachable Jan Worthens.

Mary Ann waited for results. A week brought a few checks and many promises, but nothing from Jan Worthens, the biggest debtor. A few days later when Mary Ann returned from town, her mother handed her a letter. "It's from Mr. Worthens, dear. I do hope there's a check in it." Mary Ann tore it open eagerly, but her face fell as she read it. "Mother, he says that the bill will be outlawed tomorrow, and we'll never get a cent on it."

Mary Ann was quiet and thoughtful the rest of the morning, and after dinner she put on her things and started toward the village. Her mother shook her head, and told herself for the hundredth time, that Mary Ann certainly was a problem.

She walked rapidly, as was her habit when she had a definite purpose to accomplish. She was thinking so deeply that she didn't hear the whir of an approaching motor, and was quite startled when a long gray roadster slid a few feet beyond and a cheery voice said, "Want a lift?" She was about to accept gladly, for she still had another mile to go, when she remembered that a young girl should never accept a ride with a strange young man. So she gracefully declined, and the roadster slipped out of sight around the bend.

At last she came in sight of Jan Worthens' farm. She could see the men a little farther on gathering the pumpkins into great piles. Soon she came up to them. There was the gray roadster, and the good-looking young driver was talking with Jan Worthens. Mary Ann's heart gave a big leap, but she was determined to accomplish her purpose.

She walked up to the nearest pile of pumpkins and picked up the largest one. "Oh, sir!" she exclaimed, "will you sell me this pumpkin? It is quite the largest I've seen." Mr. Worthens swelled with pride and jumped at the chance to get a fancy price. "That's a mighty big one, miss. I couldn't sell it for less than one dollar."

"All right," said Mary Ann. "I'll take it and we'll let it go on the bill you owed my father. I am Mary Ann Hackett. And you may send the rest any time."

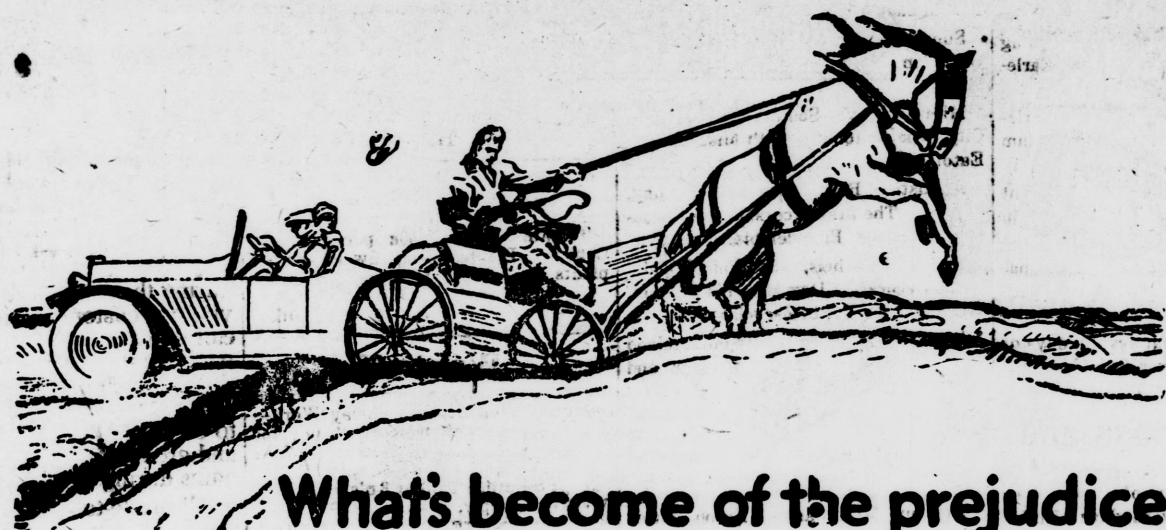

Mr. Worthens' face grew crimson. The young man of the gray roadster laughed aloud.

As Mary Ann started down the road he overtook her. "I'm Dick Worthens," he said. "You surely put one over on dad. But that pumpkin is too heavy for you to carry. Let me take it home for you, and you may come along to hold it, if you wish." Fatigue overruled Mary Ann's prejudice, and she accepted.

That was not the only ride she took in Dick's roadster, and a year later, on their wedding day, Jan Worthens congratulated his son on winning such a "shrewd young lady."

Development is Nature's Law. Life isn't worth much unless it is constantly growing out of its old self. We naturally cling to the past with its traditions and its memories. The happy days of childhood throw a glamour upon the past. It is only after the youth has become acquainted with the world and returns to visit the old home that he sees things in true perspective. Even then there will linger a sacredness hard to dispel. Common things will have a value not assigned them by anyone else. And yet the youth has grown out of his boyhood haunts and realizes he can never be the same again. The past has made the present and the present aims at the greater future that ought to be.—Grit.

Illuminated Fountain Pen. In the tube of a fountain pen not extraordinarily large, a New York inventor finds room for the necessary ink well, a tiny incandescent lamp, and a miniature electric dry battery. The light shines out under the point of the pen, its source remaining invisible to the user's eyes, while it illuminates the spot of paper over which the pen is traveling.—Popular Mechanics Magazine.

What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend nearly a billion dollars on tires alone.

Tires are one of the biggest items on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in Service.

Service is what the car owners of this community are looking for nowadays.

And especially the small car owners, who put service

first in figuring their motor-ing expenditures.

Just because a man has a moderate-price car is no reason why he should get any less service out of his tires.

We believe that the man with the small car is entitled to just as good tire service as the man with the big car—and both are entitled to the best tire service they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—large and small—are coming to us every day for U. S. Tires.

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

Seeing Chamberlain's Tablets so highly recommended for stomach troubles I bought a bottle of them and they helped me right away," writes R. F. Erwin, Penn. Ind. If you have any trouble with your digestion give these tablets a trial. They will do you good.

WONDERFUL CURE

SPRINGFIELD, OHIO, May 18—The story of how the extraction of two teeth resulted in restoration of John H. Happersett's speech and of the use of the muscles in his face and left arm is told here as follows:

For three years an invalid as the result of a stroke of paralysis, causing the loss of his speech and paralyzing the left side of his face and left arm, John H. Happersett, of Mechanicburg, is rapidly recovering, following the extraction of two molar teeth by a local dentist.

Three-quarters of an hour after Happersett had been in the dentist's chair the doctor's assistant noticed him blinking his left eye and that his crooked mouth was growing straighter. He was making an effort to talk. The doctor was called and immediately went through with Happersett. When Happersett uttered his name, for the first time in three years, both doctor and patient shed tears of joy.

The two molar teeth had been bearing upon certain nerves, causing paralysis of the upper lip, left eyelid, left arm and loss of speech. Happersett's face is now normal, his voice has returned and he is slowly regaining strength in his left arm.

Now is the Time to Get Rid of Your Rheumatism

\$20,000 Gift to State

Announcement is made by the State Board of Education of a gift of \$20,000.00, (\$10,000.00 for each of the next two years) for use by the State Board of Education in the development of dental clinic work among the children of the State.

The money will cover the expenses of a Mouth Hygiene Unit composed of three persons, to work in the schools of the State. The unit will be supplied with a Ford truck, and portable equipment.

The Mouth Hygiene Unit is the result of the dental unit demonstration work which has been carried on in Delaware for the past six weeks by Dr. E. B. Butler and his assistant, sent here by the U. S. Public Health Service through the efforts of Dr. Osincup, the Medical Consultant for the State Reconstruction Commission.

ADMINISTRATOR'S SALE

-OF VALUABLE-

Real Estate!

By virtue of an order of the Orphans' Court of the State of Delaware, in and for Kent County, I will sell at public auction or vendue, on

THURSDAY, JUNE 17th, 1920

at two (2) o'clock, P. M., at the front door of the County Court House, Dover, Kent County and State of Delaware, the following described Real Estate, to-wit:

All that certain farm, plantation, tract, piece and parcel of land situated in West Dover Hundred, Kent County and State of Delaware, and lying on both sides of the public road leading from Dinah's Corner to Kenton, adjoining lands late of Evert's heirs, now of George M. Fisher, lands of Beanie B. Downs, wife of Dr. Presley S. Downs, lands now or late of Daniel F. Loose, lands of one Nelson and lands of others, and containing

THREE HUNDRED AND SEVEN (307) ACRES AND TWENTY-FIVE (25) SQUARE PERCHES OF LAND BE THE SAME MORE OR LESS,

and being the same lands and premises which were conveyed in fee simple to the said William Paul Lorenz by the deed of Allen shock and wife, dated the tenth day of January, 1898, and of record in the office of the Recorder of Deeds, etc., of the State of Delaware, and for Kent County, in Deed Book B, Volume 8, Page 24, etc., as by reference thereto will fully appear, having as improvements thereon a fine two story frame dwelling house, with porches and attachments, a two story frame tenement house and a bungalow tenement house, barn, horse and cow stable and barn, granary, wagon shed, corn cribs, tile yard sheds, etc., all in excellent repair.

Tile and Brickyard

On this farm is erected a kiln and sheds for manufacturing the famous "LORENZWOOD POROUS DRAIN TILE" and on a portion of this land there are valuable deposits of clay. For a number of years Mr. Lorenz, the late owner, has manufactured an exceedingly fine quality of drain tile and his equipment was altogether inadequate to supply the demand. This is an established business and the tile have gone to all points on the Peninsula. This is an elegant business opportunity. There will be offered for sale on the above date, in addition to the farm, one tile and one brick making machine and other articles of personal property used in the manufacturing of tile and bricks. The undersigned Administrator will be glad to furnish any detailed information concerning this property on request.

The widow, having waived her dower by metes and bounds, and elected to take the appraised value thereof in money, the said lands will be sold free, clear and discharged of the right of dower therein.

By Order of the Court.

Attest: MARK W. COLE, Clerk. Dover, Del., May 11, 1920.

Terms of Sale

Twenty per cent. (20%) of the purchase money must be paid to the undersigned on the day of sale and the residue on the first day of the adjourned June Term of the Orphans' Court in and for Kent County, to be held at Dover, on Saturday, the Nineteenth day of June, A. D. 1920. The percentage to be paid on the day of sale will be treated as part of the purchase money if the other terms of the sale are complied with, otherwise will be forfeited for non-compliance.

JAMES M. SATTERFIELD, Administrator of William Paul Lorenz, deceased.

Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this preparation at hand ready for instant use when needed. Severe attacks of colic and cholera morbus often prove fatal before medicine can be procured or a physician summoned. The uniform success that has attended the use of this remedy and the prompt cures which it has effected have made it a staple article of trade.

JOSHUA Z. CROSSLAND, Sheriff, Sheriff's Office, Wilmington, Del., June 8, 1920.

FOGEL'S Bargain Purchases

ALL over the country we hear of merchants big and little taking 20% off the greatly inflated prices of their goods.

We do not need to do this because our prices, AS OUR PATRONS KNOW, have never been raised in the manner so common almost everywhere, but on the Contrary, our prices have always been kept remarkably low. As our patrons know we have never raised our prices above our usual fair profit on any stocks that had gone up after our purchase. This has been our invariable practice during all these years when prices, have been fairly jumping, often having again and again greatly risen since we had bought the articles. Therefore we can justly claim that Fogel's do not need to throw off any 20% to make their prices fair, reasonable, low.

When, however, as in this instance, we have made a fortunate purchase below the market, we hasten to tell our customers and to share with them the benefit of our lucky buy.

SPECIALS THIS WEEK ONLY

Here are a few of the things we have thus bought very low: One lot of Ladies' long cloth Nightgowns, slip over style—an exceptionally fine value for \$1.25—Our Special Price 69c.

Ladies' White Cotton Hose, Onyx brand, a regular 50c hose—Our Special Price 35c a pair, or 3 pairs for \$1.00.

Ladies' white, black and Cordovan Hose 65c values—Our Special Price 50c a pair or 6 pairs for \$2.75.

A choice Lot of White Children's Dresses, Organdie and Voile, suitable for Children's Day—The styles are too many to give prices of each, but we can assure our customers that each Dress will cost you less than the materials and trimmings.

We have only mentioned a few of our "Specials", but we have many others in Men's, Women's and Childrens Summer Underwear, Shoes, Dry-Goods, Ladies' House Dresses and many other articles too numerous to mention.

So if you wish to save money call and examine these articles, and you will at once realize that their purchase is highly advisable.
